PROJECT PROFILE

Title : Automation of dry-wet dust collection to support swachh bharat abhiyan and Monitoring over IOT.

Role : Team member

Technologies : IOT

Description:

The whole project is based on the IOT technology the information collected regarding the waste dumped is stored in the internet with help of Wi-Fi. This separation of waste into dry and wet will help us for the easy degradation of the waste. This process helps the environment a lot, because when dry waste and wet waste are separated the chances of increasing bacteria, mosquitoes, virus etc reduces.

Roles & Responsibilities:

- Involved in developing machine language code.
